

Susan B. Anthony (1820-1906) recalls her life as an earnest, and for a time, a frivolous, young woman and the events that brought her in 1851 to meet Elizabeth Cady Stanton and to become a full-time worker for woman's rights:

- her right to the control of her own person,**
- her right to ownership of her wages,**
- her right to the guardianship of her children,**
- her right to the VOTE.**

No woman has the right to die until she has done something for Womanhood.

—Susan B. Anthony
